## Installing Free Apps Store for Windows

---

To install Free Apps Store on your Windows PC, you need to check is it your Windows machine hit the minimum requirements at first. After that you must **purchase a valid ASAS Software Business & Educations Plan** if your PC hit the minimum requirements and you think you need it. After that, follow below steps carefully.

**Step 1:** From Apps Download Dashboard, find for "Free Apps Store" and click on "Download EXE"

**Step 2:** Go to your Downloads folder and find a file named as "FASSetup.exe". Double click it.

**Step 3:** Click on "Yes" if User App Control (UAC) permission prompted.

**Step 4:** Continue on the on-screen setup and you're done!! Go to Start Menu to find the Free Apps Store or go to desktop (*only if you created desktop shortcut*).

## Uninstalling Free Apps Store on your PC

---

If you installed Free Apps Store on your PC recently and you are planning to uninstall, kindly follow the below steps carefully.

**Step 1:** Go to Start Menu, find for "Free Apps Store" and right click.

**Step 2:** Click on "Uninstall".

**Step 3:** When you are on Windows Settings app uninstallation page, find for "Free Apps Store" carefully and click on the 3 dots "...". and click on "Uninstall".

**Step 4:** Click on "Yes" if UAC are prompted.

**Step 5:** Click on "Yes" on "Are you sure want to remove Free Apps Store and its components".

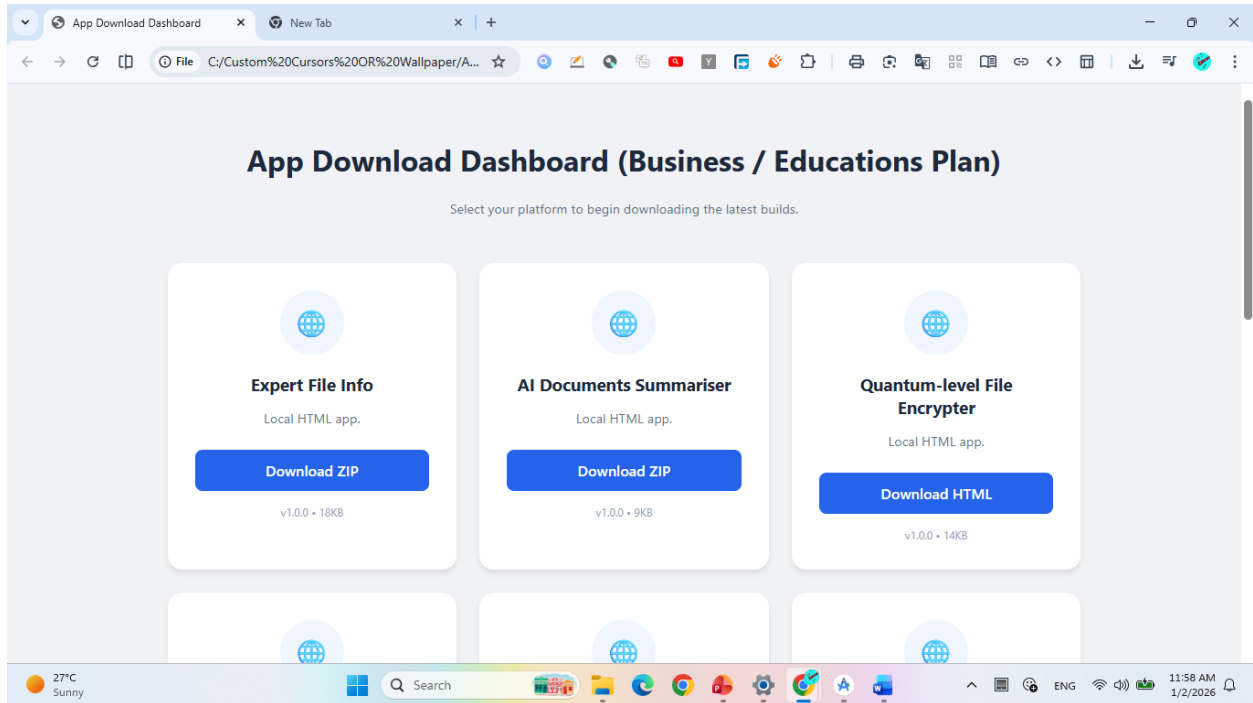

**Step 6:** Wait for a few seconds and you're all done!!
